

KRISTINA DUNAJEVA

Product Designer (UI/UX) & Frontend Developer

Narva, Estonia (GMT+3) | kdunaeva04@gmail.com | kdportfolio-ecru.vercel.app

Designer-developer hybrid who owns products end to end, from research and Figma prototypes to shipped, working code. Recent work spans a full inventory management system built solo, a commercial Figma prototype taken from research to high-fidelity UI, and a brand identity project delivered through final print production. Comfortable being the only designer and the only developer on a project.

SKILLS

Design

Figma (components, auto layout, prototyping), Affinity Designer, Photoshop, Illustrator

UX Process

User research, personas, journey maps, user flows, information architecture, wireframing, usability testing, design systems

Frontend

HTML, CSS/SCSS, JavaScript (ES6+), React, Next.js, Tailwind, Bootstrap

CMS & Platforms

WordPress, Webflow, Wix

Backend & Data

Node.js, PHP, MySQL, JSON, REST/Fetch API

Tools

Git, GitHub, VS Code, AI-assisted workflow (ChatGPT, Claude)

Creative Coding

TouchDesigner (generative, node-based visual design)

Languages

Russian (native), English (professional working proficiency), Estonian (conversational)

EXPERIENCE

Product Designer (UI/UX) & Frontend Developer

Likefon OÜ — Narva, Estonia | Aug 2024 – Present

- Designed and built a web-based inventory management system from scratch (HTML, CSS/Bootstrap, JavaScript, Fetch API, JSON) - dynamic filtering and live stock indicators replaced manual stock checks, now used daily by store staff
- Led an in-store branding refresh end to end - logo, posters, business cards - based on competitor and customer research, from brief through management approval
- Designed a commercial Figma prototype independently, from competitor research and customer analysis through to high-fidelity, interactive UI covering full user flows and information architecture
- Currently converting that prototype into a responsive production website with reusable components and structured frontend layout

Sales Consultant

Likefon OÜ — Narva, Estonia | Aug 2021 – Present

- Advise customers on phones and accessories — direct, ongoing exposure to real customer needs that now informs internal tool and interface design decisions

EDUCATION

Bachelor of Applied Sciences, Web Technologies

Estonian Entrepreneurship University of Applied Sciences — Aug 2021 – June 2025

Coursework: UX/UI design, frontend, backend & mobile development.

Thesis: "Designing a Prototype of a Mobile Application for Planning Group Travel with Friends."
